Additional Coverage

Anthem medical plans offer health care coverage you and your family can rely on. Now you can supplement your benefits with Accident and Hospital Recovery plans available from LifeSecure™.³ Supplemental insurance plans provide cash benefits that can help with high deductibles and other expenses that can quickly add up when an injury or hospital stay happens. By pairing one of these plans with a high deductible medical plan, you can extend your protection to help with unexpected costs, so that you can focus on healing and recovery. A representative can help you with additional coverage options from LifeSecure that fit your needs.
